State Board of Education

- The State Board of Education establishes policies, prescribes minimum course content and exercises general control and supervision over the public elementary and secondary schools. The Board is required to adopt textbooks used in public schools. It adopts rules and regulations governing the education of exceptional and disabled children.

State Board of Education

- The Board conducts investigations regarding the educational needs of Alabama and adopts rules for proper construction and sanitation for school buildings.

State Department of Education

- The State Department of Education executes educational policies for the schools of the State as authorized by law and determined by the State Board of Education.
- Its functions are carried out through the State Superintendent of Education and personnel of the State Department of Education, whom the State Superintendent directs.

State Department of Education

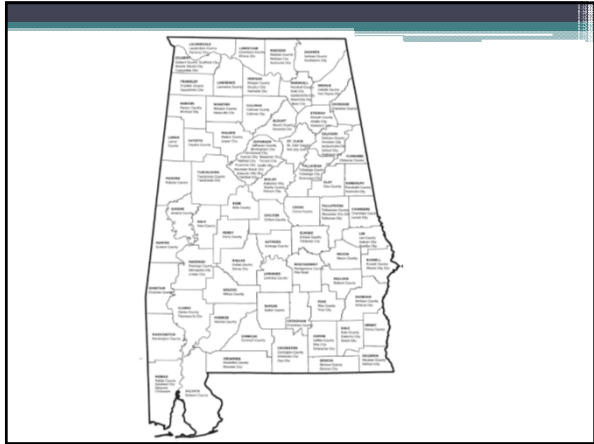

- Administers rules and resolutions adopted by the State Board of Education for elementary and secondary education and the Office of Disability Determination.
- Administers state laws and state funds appropriated for local school boards.
- Administers federal education funds and other federal funds when the department functions as a conduit for federal funds.

State Department of Education

- State Superintendent has the authority to review actions and orders of county and city boards of education, and of county superintendents and city superintendents in matters relating to finance and other matters seriously affecting educational interests.
- State Superintendent may request State Board approval to assume control of local school boards for financial, academic, and school safety and discipline issues.

Local Boards of Education

- 67 County Boards of Education. (All Elected.)
- 70 City Boards of Education as of October 1, 2015. (20 Elected and 50 Appointed By City Council)
- An incorporated municipality with 5000 or more inhabitants according to the federal census, may establish a city board of education.
- A city council may create a city board of education but cannot abolish the school board.

Local Boards of Education

- The School Board Governance Improvement Act of 2012 established new minimum qualifications for school board members , requires compliance with a code of conduct, and requires board members to participate in orientation and ongoing training.

County and City Superintendents

- All city superintendents are appointed by the city board of education.
- County superintendents of education are elected unless local legislation provides for the county board of education to be appointed instead of elected.
(As of October 1, 2014, 26 county superintendents are appointed and 41 are elected.)

Board of School Trustees

- A county board of education may appoint 3 parents or guardians of students at a school as school trustees for the school.
- The school principal serves as secretary for the board of school trustees.
- School trustees have the right to reject assignment of a teacher or principal to the school.
- School building is controlled by the trustees.

School Principals

- A principal employed by a local school system beginning July 1, 2000 does not have continuing service status. **Contract Principal.**
- Principals who had attained tenure could remain tenured and retain continuing service status.
- Contract principals are not covered by the Students First Act.
